Regarding the attack on the building of High Council of Justice Ukraine

Dear President Usyk,

Earlier today I learnt of the damage caused on the headquarters of the High Council of Justice of Ukraine during yet another aggressive attack on Kyiv. I understand that six of your colleagues were injured, the building was damaged and the business of the Council has been disrupted.

While the war against Ukraine has caused terrible suffering to your countrymen, this attack is particularly troubling to your colleagues in the European Network of Councils for the Judiciary. It also has a very personal significance for me, as it was in this building that I met with you and the rest of the High Council last October.

On behalf of the entire ENCJ, the Executive Board has asked me to express once again our support for the High Council of Justice and our deep concern about the dreadful conditions under which you continue to live and work.

We continue to admire your resilience and would like to express our full support. The ENCJ Executive Board remains ready to consider any concrete measures of support your Council thinks appropriate.

Yours sincerely

Brian O'Moore
President of the ENCJ
