## Questionnaire indicators independence and accountability of the Judiciary 2022-2023

**Country:**

**Hungary**

Methodology used for filling out questionnaire	
Who filled out the questionnaire	members of the National Judicial Council
Was a national expert group set up to validate the reply?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Who were the members of the national expert group? (names and positions)	

### Notes from the expert group:

According to the I&A Questionnaire there are only three options in administrative issues: Judiciary, Executive, Parliament. The Hungarian case simply doesn't fit into this logic, since the National Office of the Judiciary is out of the boxes, no one can say as part of the judiciary as an autonomous body of the judiciary. A clear picture could be given by taking this distinction into consideration. Furthermore, the questionnaire focuses only on formal parameters of judicial independence and accountability, thus it is not able to detect the informal political influence on courts through court leaders appointed in a partisan manner or through hostile and threatening governmental communication toward certain judges.
